

# Genesee County Metropolitan Planning Commission Educational Recycling Presentations

## Who are we?

We are staff from the Genesee County Planning Department who specialize in providing community outreach and educational opportunities to residents of all ages, especially students. To date, we have encouraged over 15,000 participants to make small lifestyle changes which assist in preserving the environment for future generations. At your convenience, we would greatly appreciate the opportunity to educate your students about important environmental issues with a focus on recycling!

## What is the presentation?

As a part of our community outreach program, we visit schools to make free educational presentations to 3rd through 6th grade students. Students will learn about the impacts of garbage and litter as well as the importance of reducing, reusing, and recycling items to support a healthy environment. Here's the fun part - each student will also take part in a hands on activity where they will create their very own piece of paper through the process of recycling old, used paper!

**Lessons Include FREE Prizes For Each Student!**

## What do we need from you?

- Approximately 45 minutes to 1 hour of your time
- A class size no larger than 30
- A screen or wall to project our presentation onto
- Tables or desks for each student to make paper
- Access to an electrical outlet

**To schedule a presentation, fill out the info on the back and send to:**
