

Traffic Counter Rental Information

On an annual basis, the Genesee County Metropolitan Planning Commission (GCMPC) requests that local units of government update traffic count information on roads under their jurisdiction. Traffic Counts are used for a variety of transportation planning activities, and are required on many federal-aid roads for the Highway Performance Monitoring System (HPMS).

GCMPC has traffic counters and accessory equipment available for rental by local jurisdictions. The counters can collect vehicle counts, as well as other traffic data such as vehicle classification and speed. The charge for equipment rental is \$5.00 per day or \$25.00 per week, per counter. Our staff is available to assist in setup and training. Optimal times for taking traffic counts are in the spring before schools are out for the summer and in the autumn after the Labor Day Holiday. Also, Tuesday through Thursday provide the best average weekday count.

For more information regarding traffic counters and rental availability, please contact Damon Fortney at DFortney@co.genesee.mi.us, or (810) 257-3010.
