

RICK SNYDER
GOVERNOR

STATE OF MICHIGAN
DEPARTMENT OF ENVIRONMENTAL QUALITY
LANSING

KEITH CREAGH
DIRECTOR

VIA E-MAIL

TO: Members of the Michigan Legislature
FROM: Keith Creagh, Director
DATE: January 29, 2016
SUBJECT: Report of Solid Waste Landfilled in Michigan for Fiscal Year (FY) 2015

In accordance with Section 11507a(2) of Part 115, Solid Waste Management, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended, attached is the Department of Environmental Quality's (DEQ) Report of Solid Waste Landfilled in Michigan for FY 2015.

There was an overall 1.5 percent increase in solid waste disposed of in Michigan landfills last year.

FY 2015	47,417,841 cubic yards disposed
FY 2014	46,727,460 cubic yards disposed

Waste from Michigan residents and businesses increased by 395,942 cubic yards. Imported waste increased by 294,439 cubic yards.

Total imported solid waste was 22.7 percent of all waste disposed of in Michigan landfills in FY 2015. The largest source of waste imports into Michigan continues to be from Canada at 17.1 percent of all waste disposed of in Michigan landfills.

FY 2015	10,763,841 cubic yards disposed from other states and Canada
FY 2014	10,469,402 cubic yards disposed from other states and Canada

Michigan landfills have a total of approximately 27 years of remaining noncaptive disposal capacity based on the capacity used during FY 2015, additional permitted landfill capacity, and the total remaining capacity of facilities open to the public. Note, this estimate does not take into consideration any projected increase or decrease in waste disposal rates, waste diversion programs, or any imposed restrictions such as volume limitations, any special conditions, or the waste import/export authorizations of each county.

If you need further information, please contact Bryce Feighner, Chief, Office of Waste Management and Radiological Protection, at 517-284-6551; or you may contact me at 517-284-6700.

INTRODUCTION

Section 11507a(1) of Part 115, Solid Waste Management, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended, requires all landfills in Michigan to “annually submit a report to the state and the county and municipality in which the landfill is located that contains information on the amount of solid waste received by the landfill during the year itemized, to the extent possible, by county, state, or country of origin and the amount of remaining disposal capacity at the landfill.”

Section 11507a(2) of Part 115 states, “By January 31 of each year, the department shall submit to the legislature a report summarizing the information obtained under subsection (1).” This report covers the period from October 1, 2014 through September 30, 2015, and is the twentieth annual Report of Solid Waste Landfilled in Michigan as compiled from the information submitted by the individual landfills.

It is recognized by the Department of Environmental Quality (DEQ) that the data may include estimates as to remaining capacity, volume, and point of origin of the waste stream reported by each landfill. Additionally, use of both standard and waste-specific conversion factors between tons and cubic yards¹ may further alter the data accuracy.

The landfills report the waste received by category using the [Combined Solid Waste Landfill Waste Receipt Report](#) (Combined Report) form. For purposes of this report²: MCW means municipal and commercial waste and is typically residential-like waste; IW means industrial waste; and C&D means construction and demolition waste. For additional information on the waste types that fall within each of these categories, see the Waste Type Key found in Appendix A. Certain IW types are accounted for specifically in the Combined Report forms, primarily to calculate the financial assurance applicable to those types of wastes. These specially accounted wastes are: (1) foundry

¹ Please note that Michigan uses the unit of measure of cubic yards to be reported by landfills. To aid in comparing other states' waste to Michigan's, a simple conversion of 3 cubic yards equals 1 ton of waste has been applied and is referenced in footnotes in this report.

² Historically, landfills and the DEQ have referred in these reports to the waste disposed as either a Type II or Type III waste. However, new waste designations have been provided to better describe the type of waste rather than the type of landfill. To properly understand the connection between previous reports and the current report, please note the following: MCW refers to the former Type II waste; and IW and C&D refer to the former Type III waste.

sand; (2) coal or wood ash; (3) wastewater treatment sludges; and (4) sludges from wood processing or paper manufacturing. If these wastes are placed in segregated cells or otherwise separated from other wastes in a landfill, they are labeled in this report as “IW – Segregated” (if each specially accounted waste is disposed separately) or “IW – Mixed” (if the specially accounted wastes are mixed together). For additional information on these wastes, see Sections 11525(3) and (4) of Part 115.

It should be noted that this report addresses waste disposed in Michigan landfills from in-state and out-of-state locations. It does not address waste originating in Michigan that is transported to locations outside Michigan for disposal. Additionally, this report covers only waste landfilled in Michigan and does not attempt to determine the amount of waste removed from the overall waste stream prior to final disposal by such means as waste reduction and recycling. Incineration in Michigan is also not addressed except for the final landfilling of ash from municipal incinerators.

WASTE DISPOSAL SUMMARY INFORMATION

Total waste disposal in Michigan landfills was reported at 47,417,841 cubic yards, an increase of 690,381 cubic yards or about 1.5 percent over the fiscal year (FY) 2014 report data. Waste generated in Michigan increased from 36,258,058 cubic yards in the previous reporting period to 36,654,000 cubic yards, an increase of about 1.1 percent. Total imports of waste into Michigan landfills increased from the previous reporting period from 10,469,402 cubic yards to 10,763,841 cubic yards, an increase of about 2.8 percent. The largest source of waste imports to Michigan continues to be from Canada, with total reported imports to landfills of 8,090,942 cubic yards, up 451,775 cubic yards or about 5.9 percent from the FY 2014 report data. Canadian waste imports equal about 17.1 percent of all waste disposed in Michigan landfills. Waste reported from other states and Canada totaled about 22.7 percent of all solid waste disposed in Michigan landfills. Imported waste comprised 22.4 percent of solid waste disposed in Michigan landfills in the previous year. Further, the data that follow outline the out-of-state imports to Michigan over the past twenty FYs. Imports from other states decreased to 2,672,899 cubic yards from 2,830,235 cubic yards, a decrease of about 5.6 percent. This information is presented in Tables 1 and 2, and

Figures 1 and 2 shows only the past ten years' data. Previous years' data can be found online by clicking the following hyperlink: [Annual Reports of Solid Waste Landfilled in Michigan](#).

Annual audits are performed by the DEQ to reconcile quantities reported by the landfills to ensure proper surcharge payments and Perpetual Care Fund (PCF) deposits. Therefore, please note that the quantities and percentages shown for previous years may reflect corrections submitted by the landfills since the last annual report was published. Consequently, Tables 1 and 2, and Figures 1 and 2 may differ from previous reports.

Recognizing that the solid waste data presented in this report are used to project revenues from solid waste surcharges specified in Section 11525a of Part 115, only the solid waste volumes reported at noncaptive³ disposal facilities should be used for the calculation of the 12 cents per cubic yard surcharge. For FY 2015 that amount was 45,801,268 cubic yards. The remaining waste was received at captive facilities, which are subject to a flat fee of \$500 to \$3,000 based upon the volume of waste received. Note that the volumes in this report may not be in agreement with the volumes also reported by the landfills in their quarterly surcharge reports.

³ Part 115 recognizes two types of facilities, captive and noncaptive, for the purposes of the payment of the surcharge assessed under Section 11525a. Section 11525a(5) states, in pertinent part, " 'captive facility' means a landfill that accepts for disposal only nonhazardous industrial waste generated only by the owner of the landfill or a nonhazardous industrial waste landfill that is specified in section 11525(3)."

**FIGURE 2
MICHIGAN AND OUT-OF-STATE WASTE AS PERCENTAGE OF TOTAL DISPOSAL
IN MICHIGAN LANDFILLS**

The following provides details concerning the volumes of waste disposed in Michigan landfills and provides a breakdown of the waste imported into Michigan for disposal for all landfills that reported this information. Table 3 displays waste disposal summary information for both in-state and imported waste. Some facilities may have reported data from an unknown origin. All unknown waste is reported as in-state waste, however, it is expected that some of the unassigned waste is from out-of-state sources.

TABLE 3 SOLID WASTE DISPOSAL SOURCE SUMMARY – FY 2015 (Volume in Cubic Yards)			
WASTE TYPE	IN-STATE	IMPORTED	TOTAL
MCW	22,910,539	8,417,645	31,328,184
MCW – MSW* INCINERATOR ASH	50,133	948	51,081

SUBTOTAL IW	9,490,824	1,202,957	10,693,781
C&D	4,202,504	1,142,291	5,344,795
GRAND TOTAL	36,654,000	10,763,841	47,417,841

*Municipal Solid Waste

Table 3A displays the IW disposal summary for both in-state and imported waste. Landfills are only required to report to the DEQ, to the extent possible; therefore, some landfills may not have broken down the materials disposed to the level of detail as shown below and, thus, have categorized all their industrial waste as “IW – General.” The “IW – Alternative Daily Cover” category is other material that is approved by the DEQ for use as alternative daily cover at an operating landfill. The “IW – Other” category refers to other industrial waste types that are not identified on the Combined Report form and includes contaminated soils.

TABLE 3A INDUSTRIAL WASTE DISPOSAL SOURCE SUMMARY - FY 2015 (Volume in Cubic Yards)			
WASTE TYPE	IN-STATE	IMPORTED	TOTAL
IW - Foundry Sand	245,018	39,819	284,837
IW - General	4,659,539	780,586	5,440,125
IW - Wastewater Sludges	259,017	672	259,689
IW - Other Sludges	183,859	3,720	187,579
IW - Alternative Daily Cover	688,103	205,371	893,474

IW - Wood/Paper Sludges	77,453	207	77,660
IW-Wood/Paper Sediment	48,339	0	48,339
IW - Cement Kiln Dust	451,448	1,337	452,785
GRAND TOTAL	9,490,824	1,202,957	10,693,781

WASTE IMPORTS

Based on the reported information for FY 2015, the solid waste industry in Michigan imported solid waste from 3 other states and from Canada for disposal in Michigan landfills. Table 4 indicates the volume of MCW, IW, and C&D imported and the state or country of origin of the waste. Figure 3 indicates the total volume of waste imported by state or country of origin of the waste.

TABLE 4 IMPORTED WASTE BY ORIGIN - FY 2015 (Volume in Cubic Yards)				
WASTE ORIGIN	MCW	IW	C&D	TOTAL WASTE

FACILITY INFORMATION

The total of MCW disposed, total of IW and C&D disposed, and total volume disposed at each of the 70 reporting facilities is given in Table 7. Tables 8 and 9 list the MCW and the IW and C&D disposal volumes ranked in order of volume disposed. The highlighted type of waste in each of Tables 8 and 9 corresponds to the focus of that table. However, all waste information is also provided for reference purposes.

CAPACITY INFORMATION

As defined in Section 11507a(1) of Part 115, “Remaining disposal capacity shall be calculated as the permitted capacity less waste in place for any area that has been constructed and is not yet closed plus the permitted capacity for each area that has a permit for construction under this part but has not yet been constructed.” Table 10 presents projected remaining noncaptive disposal capacity, capacity used during the fiscal year, estimated years of remaining capacity (rounded to the nearest year) as reported by each facility, and a DEQ-calculated estimate of years of remaining capacity, for each noncaptive facility, alphabetically. The data presented in Column (C) for each facility are based on site-specific calculations, which may vary among facilities. The data representing capacity used in FY 2015 and estimated years remaining, as calculated by each facility, are presented for informational purposes only. It should also be noted that the amount of waste received at each facility may differ from the capacity used during the FY depending on the type of waste disposed and the degree of compaction.

The DEQ used a simplistic formula to calculate estimated years of remaining capacity for each facility, using the data provided by each facility: Column (A) divided by Column (B) equals Column (D). Although, in some cases, the facility-projected years of remaining capacity in Column (C) equals the calculated remaining capacity in Column (D), it must be noted that each facility may have used a different formula to calculate their projected years of remaining capacity and, therefore, may differ from the calculations presented in Column (D).

WOODLAND MEADOWS RDF-VAN BUREN	16,340,000	1,655,000	10	10
TOTAL	508,625,178	18,878,778		

Based on current capacity used for FY 2015 (18,878,778 cubic yards) and total remaining capacity at noncaptive facilities (508,625,178 cubic yards), which may include additional capacity permitted⁸ during the fiscal year and using the same calculation for deriving the values in Column (D), it is estimated that Michigan noncaptive landfills have approximately 27 years of remaining disposal capacity left. This estimate does not take into consideration any projected increase or decrease in waste disposal rates, waste diversion programs, or any county-imposed restrictions such as volume limitations, any special conditions, or the waste import/export authorizations of each county.

⁸ Construction permits were issued to the following landfills and were reflected in their Combined Report forms; these permits increased or decreased their disposal capacities and have been reflected in this report: Carleton Farms Landfill; Niagara Development, LLC.; Pine Tree Acres, INC. Vienna Junction Industrial Park Sanitary Landfill.
