This plan serves as the county's long-range plan as well as the master plan. Five key themes from the plan and the public engagement were presented.

Mr. Dan Moulton presented the technical reports which were created to help create the plan. These technical reports will be available on-line for communities to use. Fiscal restraints, county priorities and visions were discussed. Next the public comment period from December 22, 2025 to February 23, 2026 will take place. Following the public comment period, a public hearing will take place on February 25, 2026.
